

As a part of the celebration of the 50th spring of Orahovac, SRK "Baraber" from Belisce invites you to a unique event "Papuk marathon", which is a part of the outdoor festival "Papuk extreme challenge". Our goal is to make it the largest sport-tourist-gastronomic spectacle ever held in Croatia. In addition to many different sports, the program also includes cultural events that provide fun between races. You will also have the opportunity to taste many Slavonian specialties in our rich gastronomic offer. The goal is to realize this event as a great eco fairytale and at the end of the whole festival leave the nature the same as we have found it to show our contestants, viewers and all festival participants the importance of preserving our beautiful environment, that is a true gift from God. We hope you will also become part of this fairy tale and support us on the days of the festival, from 1. to 3. June 2018.
